

2D CHARACTER CONTROLLER – BUG REPORT

Report number: B02

Report date: 06/Jun/2026

Status: fixed. **Date:** 07/Jun/2026

Short description

Player stuck inside tilemap when jumping from high positions.

Long description

If the player reaches a high position (approximately more than 8 tiles) and performs a high jump, the player falls inside the tilemap, preventing it from moving outside.

Steps

1. Run executable "platformer.exe".
2. Move player to a higher level.
3. Perform a high jump (by holding space).
4. Fall from the higher level to a lower surface of the tilemap.

Expected results

The player falls to a lower surface, lands on it and can proceed to move freely.

Actual results

The player falls to a lower surface and gets stuck inside the tilemap.

Severity: 2

1=critical, 2=disrupting, 3=minor

Frequency: 9/10

Notes: collision detection as possible cause
